

Kessler Ag Ventures Ltd.

Precision Agronomist – Southern Saskatchewan

Kessler Ag Ventures is an agronomy consulting firm in Southern Saskatchewan that uses modern agronomic practices in today's industry. Infused with technology and innovation, driven by purpose and passion for farming, our mandate is to provide our clients with optimal growing solutions enabling profitability and environmental sustainability. As our organization grows, we are looking for a Full-Time Agronomist to join our team. This individual will provide support and service offerings to growers using the latest technologies and tools.

We are currently seeking a Full-Time Precision Agronomist to help us deliver our service offerings to customers in Regina – Milestone – Yellow Grass – Weyburn and South region. Specific location is flexible within these areas.

Accountabilities

- Maintain and build trustworthy relationships with growers
- Regular in season field scouting duties – plant stand establishments, herbicide timing/efficacy, pest management and pre/post harvest recommendations
- Strong focus on variable rate technology including implementing action plans for variable rate application of products and solutions
- Use of satellite imagery, GPS, drones and application equipment
- Accountable for all aspects of data management for each client
- Responsible for mapping fields, ground truthing soil zones and performing soil sampling duties in field (SWAT MAP system)
- Zone mapping analysis including seeding rates, fertility recommendations and pest and disease identification
- Providing agronomic services in field using scouting apps and software
- Utilize and understand a variety of agriculture equipment from all major manufactures
- Willingness to work outdoors, along with overtime as necessary during peak season
- Ability to manage working in a home office when not performing in-field responsibilities

Position Requirements

- Strong communication skills and relationship building capabilities
- Thorough knowledge of the agriculture industry and best practices
- Excellent time management skills
- Analytical, detailed and systematic work actions
- Experience with data management
- Honest and transparent interpersonal values
- Comfortable building impactful relationships with clients, our team and industry partners
- Travel within the province during peak times of growing season

Education/Experience

- A post-secondary degree or diploma in Agriculture or related field
- Minimum of 3 to 5 years experience in Agronomy
- SIA Membership or CCA accreditation
- GIS training/education is an asset
- Valid class 5 driver's license

Kessler Ag Ventures offers a competitive total compensation package including health/dental benefits, year end bonus opportunity, work vehicle, laptop, work ATV and mobile phone.
